

MARINGO Mobile Access to Customer and Project Data with SAP Business One

Cologne, 18/03/2011

At CeBIT 2011, MARINGO Computers presents a new version of the Mobile Client for ProjectManagement, a project planning and controlling software integrated with SAP Business One. The Mobile Client allows to access customer and project data by smartphone. Moreover, the software provides the opportunity to capture hours mobile and to view support or maintenance contracts and to approve documents and project times within the scope of an approval procedure. The Mobile Client of ProjectManagement supports amongst others iPhone, iPod, Nokia Smartphones and devices using the operating system Android.

MARINGO Computers thus takes into account the growing demand for mobile applications. Business managers are more mobile than ever before and have to be in the midst of the action at any time. They use already scenarios for mobile applications, whether address or journey to a customer, access to A/R invoices, approved vacation or documents.

MARINGO Computers is a software development and consultancy firm located in Cologne (Germany). Since its foundation in 1986, MARINGO has been specializing in the development of business management solutions. The own integrated software solution ProjectManagement based on SAP Business One including project planning, accounting and controlling has been specifically designed to meet the needs of the professional services and engineering, operations & ECO industry.
